Ethical Compliance

All articles for HJUM require a declaration on any conflict of interest relating to the present and the past five years. Authors are formally requested to declare any financial and personal relationship to third parties whose interests could be positively or negatively influenced by the article's content, even if the author believes there to be no influence.

Naturally, a conflict of interest does not in itself detract from the scientific statements made in the article. Even if there is no conflict of interest, this must be stated explicitly.

Medical research is subject to ethical standards, which promote the respect of all humans and protect their health and rights. Physicians should take into consideration the ethical, legal and regulatory norms and standards for research on humans and animals in their respective countries as well as the respective international norms and standards.

Statements concerning having received approval by the appropriate ethics commission and having obtained informed consent from the participating patients should already be made at the time of submission of your manuscript. In the case of use of laboratory animals, please confirm that all national guidelines for the care and use of laboratory animals have been complied with and approval has been obtained from the responsible authorities.

Note: We do not levy any charges for submission of papers.

Instructions to the Authors

- The paper(s) should be submitted through email: rop.ccrum@gmail.com. Submission of a paper will be taken to imply that it is unpublished and is not being considered for publication elsewhere.
